British Politics and Society

Study British politics, history, foreign policy, law, and society in London while earning ISS or PLS credits.

"Instead of just learning about the UK Parliament, I was able to actually go in and see where the House of Commons and House of Lords is set up. I was able to experience the Magna Carta walk, see where so many past kings and queens are buried, be able to say I have seen a play in Shakespeare's Globe, and so much more."

Learsi Martinez
